AS

Data Analyst Intern Virtue Analytics	08/2026 – Present On Site
---	-------------------------------------

- Worked on data cleaning, analysis, and visualization to derive meaningful business insights.
- Analyzed datasets to identify trends, patterns, and key performance indicators for reporting.

Data Science Intern	
Zidio Development	Remote

- Worked on data preprocessing, exploratory analysis, and machine learning tasks.
- Applied statistical and machine learning techniques for data-driven model development and evaluation.

M.Sc. Data Science 2025 - 2027
Indian Institute of Information Technology Lucknow
(IIIT Lucknow) CGPA: 8.0

B.Sc. (Hons.) Mathematics 2020 - 2023
Babu Banarasi Das University, Lucknow CGPA: 8.69

Real-Time Pest Detection using ResNet-50 and Vision Transformer

- Developed a hybrid deep learning framework using ResNet-50, Vision Transformer, and CNN for real-time agricultural pest detection.
- Achieved 96% training accuracy through fusion-based image classification and feature extraction.

 GitHub

Flipkart Product Review Sentiment Analysis | NLP

- Built an NLP application to classify sentiment of 100K+ Flipkart reviews using TF-IDF, Logistic Regression, and Naive Bayes.
- Implemented preprocessing, feature engineering, evaluation, and deployed the application using Streamlit.

 GitHub

Bank Loan Risk Analysis | SQL

- Analyzed 10,000+ loan records using SQL to identify high-risk customer segments and calculate default rates.
- Used JOINS, CTEs, GROUP BY, CASE WHEN, aggregate, and window functions for business analysis.

 GitHub

AI-Powered Research & Document Intelligence Assistant | RAG

- Built a RAG system allowing users to upload research papers and ask questions about their contents.
- Retrieved relevant information and generated answers with document and page-level citations.

 GitHub

M.Sc. Data Science student at **IIIT Lucknow** with experience in data analysis, machine learning, and NLP. Skilled in Python, SQL, Pandas, NumPy, Scikit-learn, and TensorFlow, with hands-on experience in data preprocessing, EDA, and model development. Built projects in NLP, RAG, and LLM-based applications. Seeking opportunities in **Data Science**, Machine Learning, or AI.

Programming

Python	SQL	C
--------	-----	---

AI & Machine Learning

Scikit-learn TensorFlow Keras NLP

Deep Learning Machine Learning

GenAI & LLM

LLMs Prompt Engineering Embeddings

RAG Vector Databases

AI Development

REST APIs Streamlit

AI Application Development

Data & Databases

Pandas NumPy MySQL PostgreSQL

Tools

Git	GitHub	Jupyter Notebook	Excel
-----	--------	------------------	-------

Visualization

Power BI Matplotlib Seaborn

 INSPIRE Scholar – DST, Government of India
2020–2023

IIT JAM 2025 Qualified – AIR 1245
